As students transition back to in-person learning, reinforcing your school’s conduct standards is more important than ever. SchoolMint Hero is a behavior management platform that can help you do just that — and much more.

**Happy, stress-free teachers and administrators lead to happy students — and vice versa.** When everyone feels supported and knows what’s expected of them, mutual trust and respect will flourish. But that’s not the only benefit to Hero. You’ll also enjoy:

- **Effective positive reinforcement.** Focusing on positive behavior reinforcement can treat an issue at its roots, catalyzing better behavior throughout campus.
- **A virtual points system.** Hero offers a virtual points system that translates well to real-life rewards for students. These points encourage everyone to meet expectations.
- **Equal rule enforcement.** Hero standardizes the consequences for infractions, which ensures fair treatment for all according to a school’s policies and framework.
- **Direct engagement with families.** With the student and parent apps, families can remain up-to-date on a student’s points, assigned actions, and more.
- **A platform that’s customizable to your school.** Set up and use only the features you need and want — and none of those you don’t.

**What is Hero?**

As an all-in-one platform for creating positive behavior changes in schools, Hero unites your entire campus behind one plan, enabling teachers and administrators to recognize good behavior when they see it, reward students for positive actions, redirect negative behavior, apply actions and interventions, and hold students accountable for their own behavior.

**Why choose Hero?**
